About Us

Apex is a Software company established in the year 2004. Apex is focused on Direct Marketing with over 3000 plus clients and over 25 lakh distributors and still counting.

Apex believes that providing an earning opportunity to the people is the biggest way to contribute back to the society as social service.

Apex Social Service

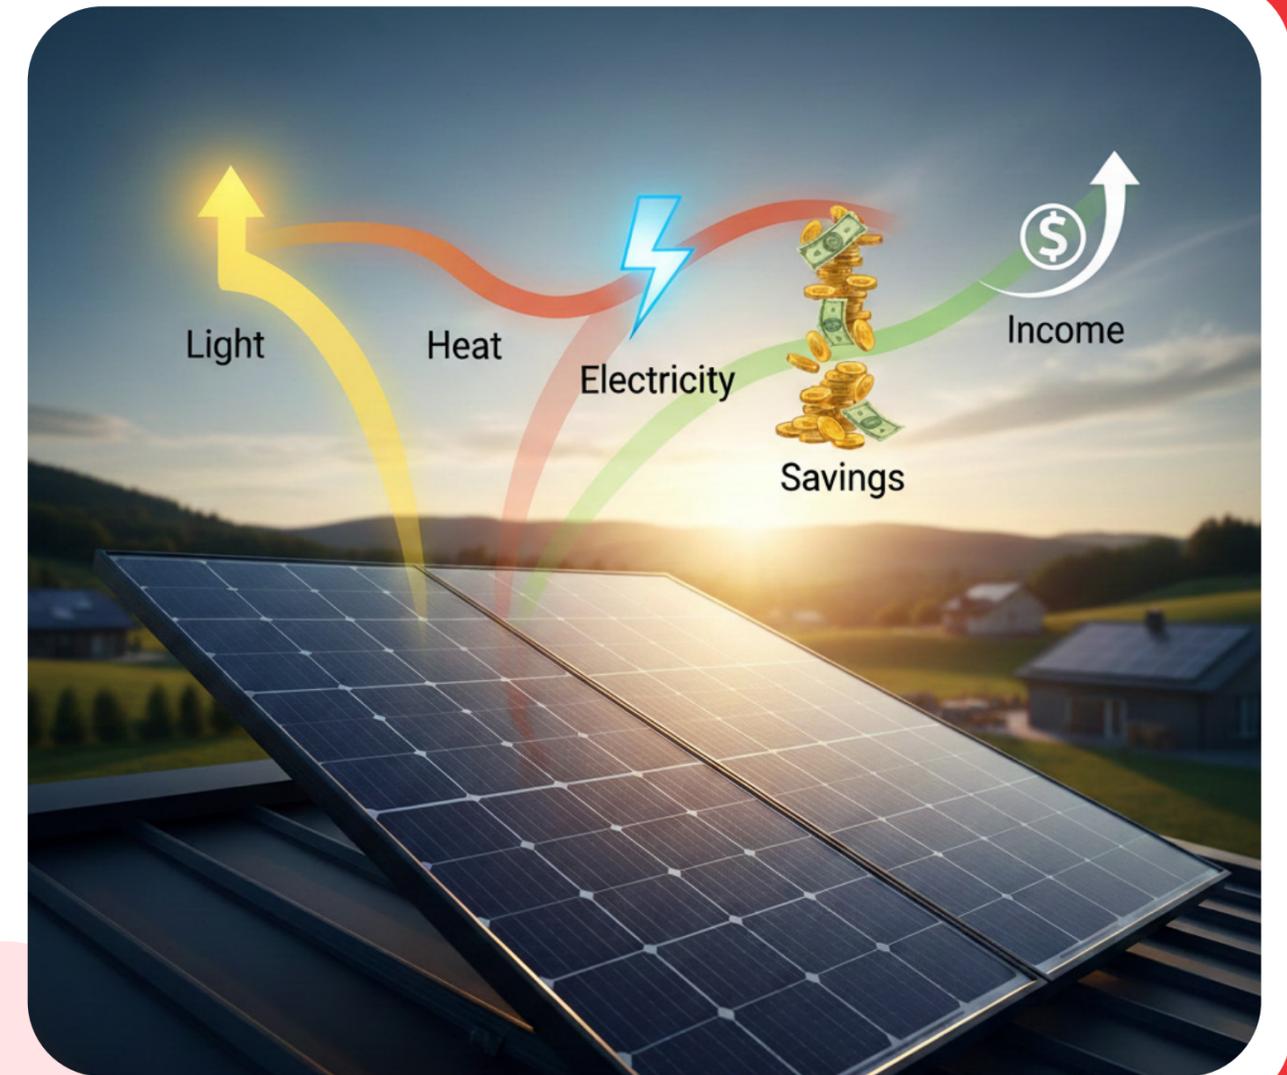

Providing Earning Opportunity

Solar Plant as Product

Any person getting a power bill Rs.1500 or more per month can install roof top solar plants ranging from 1KW to 10KW. Apex join hands with top most EPC (Engineering, Procurement, and Construction) companies to provide solar plants for domestic and commercial use.

Soft Loan and Subsidy

Government of India under PM Surya Ghar Muft Bijli Yojana any person can apply for subsidy upto Rs.78,000 and get bank loan with interest rates starting from 6% per annum.

Step 1: **Booking Process**

A customer initially has to pay Rs.3600 and book the solar plant according to the individual power requirement. The EPC company process the application and submit the feasibility report, if feasible, the installation process begins after completing commercials which is a combination of subsidy and beneficiary contribution. The beneficiary also has the option of getting a soft loan starting from just 6% per annum interest.

Step 2: **Installation**

Once the feasibility report is received, the customer has to pay the cost of the plant as per the terms of the EPC company or sign documents for obtaining and processing bank loan. The cost of the plant varies from 1KW to 10KW which you can see in the price list.
